## **Bart Ceulemans**

Quality Manager at Continental Automotive Benelux Mechelen in Belgium.

Bart Ceulemans started his career at ITT Teves, the German Brake System producer, as a Quality Engineer. With his degree of Master of Science in Industrial Engineering Electro-Mechanics and Welding he got the responsibility for the quality of several production lines. After six years he got the responsibility of the whole Quality Engineering department. In the meanwhile the company was incorporated in the Continental holding. Since 2006 he became Quality Manager for the whole plant, getting in charge of the already known Quality Engineering, Quality Systems and Supplier Quality Management. Over the years Bart Ceulemans built up a lot of experience in Quality in an industrial environment.
