

Biographical Note

Federico Barravecchia

Federico BARRAVECCHIA

He's currently a Ph.D. student in Management, Production and Design at Politecnico di Torino (Italy) under the supervision of Professor Franceschini. He is part of the Quality Engineering and Management Group at Politecnico di Torino. In 2018 joined the Cambridge Service Alliance (Institute for Manufacturing – University of Cambridge). He has a master degree in Management Engineering (2016) by Politecnico di Torino.

His work centers on the way in which manufacturing companies move from supplying products only to providing products and services. His research and publication interests include: Quality Engineering, Servitization of manufacturing companies, Product-Service Systems and Service Science.
