

Biographical Note

Grace Brannan

Dr. Grace Brannan

Is a Research Educator and Scientist with over 25 years of research, quality improvement, and teaching experience. Her expertise is in the areas of sensory science, qualitative and quantitative population-based research studies, quality improvement, design of experiments, and applied statistics. She held a variety of technical consulting and management positions prior to joining Ohio University in 2006. She has co-authored numerous peer-reviewed publications and has co-authored a book on statistically-based quality measures.

Since 2007, Dr. Brannan has been an elected member of the prestigious International Academy for Quality, an organization of the most respected, active and experienced proponents of quality in the world. She has conducted many research, sensory, and statistical trainings globally. Most recently, she held the position of Associate Dean for Research at Campbell University School of Osteopathic Medicine where she created and successfully implemented a continuum of research strategy across undergraduate and graduate medical education. She taught research methodology and design, applied statistics and quality improvement methods and mentored/collaborated with physicians, residents, and medical students. Currently, she serves as President of GDB Research and Statistical Consulting and works with medical training programs in meeting and exceeding ACGME research, scholarly and quality improvement requirements. She holds a Bachelors degree from the University of the Philippines, a Master of Science degree from the University of Georgia, USA and a Doctorate degree from Kansas State University, USA.
